HEBRON - Coating Excellence International, a Wisconsin-based maker of flexible packaging, has opened a manufacturing plant in a 120,000 square-foot building on Aviation Boulevard.

It's expected to employ more than 100 people over the next three years.

Last year, the company was awarded a \$1 million Kentucky Industrial Development Act incentive and was offered an economic development bond of \$250,000, which would be deducted from the original incentive.
